NON—G.M.O. POLICY

To Whom It May Concern:

Hilton Soy Foods only processes soy based foods. All raw soybeans sourced and purchased by Hilton Soy Foods used in our processing are produced from seed that does not contain any genetic material of non-soybean origin.

The soybeans are planted, harvested, transported, stored, conditioned and packaged in such a manner so as to minimize the risk of contamination from other soybean varieties. All raw soybeans are tested for the presence of GMO prior to unloading at our facility. Any soybeans that fail the GMO strip test are rejected.

All products produced by Hilton Soy Foods that contain ingredients from other suppliers are all GMO free. However, we cannot guarantee that these ingredients purchased from other suppliers were derived from exclusively Non-GMO components.

Sincerely,

Scott Mahon
Quality Director
Hilton Soy Foods
